

JONES STEPHENS LEVELBEST® DRAINAGE SYSTEM

The LevelBest® drainage system ensures a clean, professional installation every time. The system's unique design allows for adjusting height BEFORE and AFTER the concrete is poured! No need to chip or chisel.

Assembling your drainage system is easy!

1

**Choose Your
Rough-In**

3" x 4" or 4"

2

**Choose Your
Trim**

Cleanout or Drain

3

**Complete Your
Drainage System**

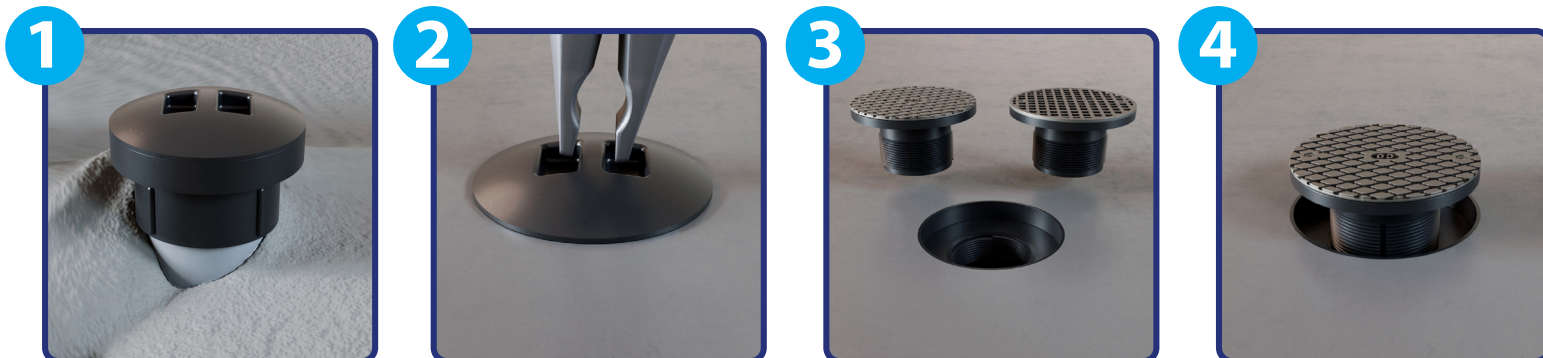

3" x 4" or 4" with
Cleanout or Drain

See reverse side for product listing, packaging details, and video.

The LevelBest® Drainage System allows for adjustment to floor level **AFTER** the concrete is poured. Installation is as simple as...

LevelBest® Features:

- Domed top for protection during concrete pour
- Heavy duty nickel bronze trim
- Top is safe to use with power floats & power trowels
- Can be used with tile rings
- Primer tapped
- Cleanouts include countersunk test plug
